

**Modifications to the Draft Local Authority Climate Action Plan 2024 – 2029 for the Monaghan County Council functional area**

**Strategic Environmental Assessment Screening Determination under SEA Directive 2001/42/EC as transposed into Irish law under the European Communities (Environmental Assessment of Certain Plans and Programmes) Regulations 2004 (S.I. 435/2004), as amended**

Monaghan County Council has prepared a Draft Local Authority Climate Action Plan (LACAP) for the Monaghan functional area for the years 2024 – 2029 under Section 16 of the Climate Action and Low Carbon Development (Amendment) Act 2021.

A screening determination for the need for Strategic Environmental Assessment (SEA) has been made by Monaghan County Council for the Modifications to the Draft LACAP under Directive 2001/42/EC. The screening assessment was carried out using the criteria for determining the likely significance of effects as set out in Schedule 1 of S.I. 435/2004, as amended.

The Modifications to the Draft LACAP have been made following a review of the issues raised during the prescribed public consultation period for the Draft LACAP from 19<sup>th</sup> October 2023 to 4<sup>th</sup> December 2023 and subsequent consideration by Monaghan County Council.

The Draft LACAP has been informed by a SEA and an SEA Environmental Report has been prepared outlining the likely environmental effects of the Plan in accordance with the SEA Directive 2001/42/EC. Measures have been integrated into the Draft LACAP that provide for and contribute towards environmental protection, environmental management, and sustainable development.

Following assessment of the criteria and having regard to the nature of the Modifications to the Draft LACAP and the potential for likely significant environmental effects associated with the Modifications, Monaghan County Council has concluded that the Modifications to the Draft LACAP will not give rise to likely significant effects on the environment.

This determination has been made following consideration of the information contained in an SEA Screening Report for the Modifications to the Draft LACAP, and the criteria set out in Schedule 1 to S.I. 435/2004, as amended. The principal reasons the Modifications to the Draft LACAP will not give rise to likely significant effects on the environment are as follows:

- The modifications are only intended to provide clarification on existing Climate Actions defined in the Draft LACAP and make the LACAP more operative and focussed.
- The modifications are not material and will not result in any additional, likely significant environmental effects not already considered in the SEA Environmental Report for the Draft LACAP.

Taking account of the above, it is determined that full SEA is not required to be undertaken for the Modifications to the Draft LACAP.

An SEA Statement will be prepared following adoption of the LACAP, which will detail the SEA process undertaken for the LACAP.
