Route Description

The Preferred Route Corridor initially runs from Clontibret in a north-westerly direction passing to the southwest of Castleshane, before crossing the existing N2 near the townland of Commurphy and continuing to Cordewils. The corridor then runs in a north-westerly direction, crossing the N12 and Ulster Canal near the townland of Crowey, to the northeast of Monaghan Town and the Blackwater River at Faulkland (Upper), to Mullabrack. From here it runs in a northerly direction towards Durncaw where it runs along the western edge of Durncaw Lough and then passes Derryhallagh where it crosses the existing N2 directly north of Corracin. Crossing the Mountain Water River and bypassing Emyvale to the west of the village at Drumilly the corridor then veers in a north-easterly direction and crosses the existing N2 between the townlands of Lenagh and Knockakivan. It continues to the townland of Drumcoondra where after it veers in a north-westerly direction to the townland of Killydonagh where it runs northwards to the termination point at Moy Bridge, the Northern Ireland border.
