С	Sample received in incorrect container, which may compromise result.					
D/W	The sampling date and/or time has not been provided and therefore the sample holding time cannot be determined. possible that the results may be compromised.					
Н	Sample recevied in vial with inappropiate headspace, which may compomise result.					
Р	Preservative not used for critical parameter, which may compromise result					
Т	Inappropiate sample temperature upon receipt, which may compromise result.					
R	Test is INAB accredited. Sample received outside recommended sample holding time, which may compromise result.					
Note 4	Test is INAB accredited. The handling of the sample within the laboratory did not comply with the laboratories possible that the result may be compromised.					
Note 5	Result exceeds the accredited range of measurement for this parameter. E.g. Result exceeds the accredited range of measurement for ammonia, 0.02 - 12 mg/L N
