Cllr Connolly stated that he did not wish to withdraw the motion.

That Monaghan County Council asserts that this local authority will not pass on the cost of the Property Tax to its tenants.

housing is being provided to people with special housing needs such as the elderly or people with disabilities. Liability for payment will rest with the local authority or social housing organisation as owner.

Whilst the full financial implications of this matter in relation to local authority are not fully developed, tenants in social housing would not appear to have a direct liability for payment of the tax. The Deputy Mayor stated that he was putting the proposal to deal with urgent business to the meeting. A roll call vote was called for which resulted as follows:

He stated that the guidelines appeared to indicate that there would be either two or three municipal districts established in the county and he thought that the members should make their views known on this.

12. Questions:

Cllr C. Bennett asked:

1. Given the problems associated with the water supply to Scotstown and Ballinode villages in relation to the hardness of the water and the additional cost that this is causing to consumers, what steps does the Council propose to take to relieve the consumers of this additional cost; is it possible to source an alternative water supply which would reduce the hardness of the current water supply?

Reply: *Water in Monaghan PWS comes from two sources – groundwater wells (hard water), treated at Crosses WTP and surface water lakes (soft water) treated at Togan WTP. Water from both plants is sent to Gortakeegan Towers where it is mixed and distributed to Monaghan Town and surrounding areas.*

The water in Ballinode and Scotstown comes directly from the Crosses WTP and consequently is not mixed with the Togan water. Therefore, it is harder than the water in Monaghan Town.

The highest Hardness level measured in the past four years, expressed as Calcium Carbonate [CaCO₃], in the Scotstown Area was 340mg/l.

Ranges for hardness in mg/l CaCO₃ are:

Soft – Less than 75

Moderately Hard - 75 to 150

Hard – 150 to 300

Very Hard – Greater than 300.

There is no set limit on hardness under the Drinking Water Regulations which transposed the EU Drinking Water Directive [80/778/EEC] into Irish law. Rather, there is a minimum set if an attempt is made to soften water, as hardness it is deemed good for human health.

The following is extracted from the World Health Organisation reference manual

-

Guidelines for drinking-water quality, third edition, incorporating first and second addenda

Hardness

Hardness caused by calcium and magnesium is usually indicated by precipitation of soap scum and the need for excess use of soap to achieve cleaning. Public acceptability of the degree of hardness of water may vary considerably from one community to another, depending on local conditions. In particular, consumers are likely to notice changes in hardness.

The taste threshold for the calcium ion is in the range of 100–300 mg/litre, depending on the associated anion, and the taste threshold for magnesium is probably lower than

that for calcium. In some instances, consumers tolerate water hardness in excess of 500 mg/litre.

Depending on the interaction of other factors, such as pH and alkalinity, water with a hardness above approximately 200 mg/litre may cause scale deposition in the treatment works, distribution system and pipework and tanks within buildings. It will also result in excessive soap consumption and subsequent "scum" formation. On heating, hard waters form deposits of calcium carbonate scale. Soft water, with a hardness of less than 100 mg/litre, may, on the other hand, have a low buffering capacity and so be more corrosive for water pipes.

As the current PWS complies with all standards there is no proposal to source an alternative supply.

2. In relation to the proposed sewerage extension from Scotstown village to Urbleshanny, when is it proposed that these works would commence; what is the current situation and can the Council outline the different stages of the process to having the extension completed and the timescale for same?

Reply: MCC have agreed in principle with landowners a site location for the proposed pumping station. Water Services are currently preparing Part 8 planning drawings and it is programmed to present these at April meeting. In parallel an application for funding in 2013 will also be made to Department of Environment under the Rural Water Programme. If successful the Council will advance the project to tender stage. Construction work on this project is estimated to take 3 months.

Cllr J. O'Brien asked:

3.
 - (a) What was the outcome of the court sitting in relation to Hope Castle?
 - (b) What is our legal opinion on the matter going forward?
 - (c) Can the Council please provide a detailed costing of all costs associated to the dealing with Hope Castle and Lough Muckno from the time of trying to get this property back in the full ownership of Monaghan County Council? In the costing can MCC please provide estimated costs currently outstanding if any.

Reply: Monaghan County Council's appeal against the decision by Castleblayney Circuit Court to permit Mr. Chris Haren proceed with a claim under section 8 of the Malicious Injuries Act 1981 was heard at Dundalk High Court on 7 December 2012. Proceedings were adjourned pending the receipt of further submissions from both parties.

It is not proposed to comment further pending the outcome of the hearing, when the matter will be referred to the sub-committee appointed by the Council.

Costs incurred by the Council since 2008, in relation to the recovery of Lough Muckno property, currently exceed €400,000.

Cllr R. Gallagher asked:

4. In relation to the new proposed property tax legislation, what effects if any will this have on local authority tenants?

Reply: *From the guidance that we have received from the Local Government Management Agency, local authority housing and social housing will not be exempt from the local property tax unless the housing is being provided to people with special housing needs such as the elderly or people with disabilities. Liability for payment will rest with the local authority or social housing organisation as owner.*

Whilst the full financial implications of this matter in relation to local authority are not fully developed, tenants in social housing would not appear to have a direct liability for payment of the tax.

The anticipated reforms of the differential rents system are expected in 2013 and are likely to address the issue in more detail.

5. Will the Council outline the grants available for the upgrading of septic tanks and who qualifies for same?

Reply: *The Minister has announced that provision is being made in the Rural Water Programme 2013 for a grant scheme to provide financial assistance to those households whose domestic waste water treatment systems are deemed, following inspection under the Water Services (Amendment) Act 2012, to require remediation or upgrading. The Minister has stated "It will be a condition for eligibility for financial assistance under the scheme that householders comply with the legal requirement to register their system by 1 February 2013 on www.ProtectOurWater.ie."*

The level of grant available will be dependent on the income of the household, as per the table below.

<i>Household Income</i>	<i>% Costs Available</i>	<i>Maximum Grant</i>
<i>Up to €50,000</i>	<i>80%</i>	<i>€4,000</i>
<i>€50,001 - €75,000</i>	<i>50%</i>	<i>€2,500</i>

6. Could the Council liaise with the Courts Service with regard to best use of community service programme for litter picking, clean ups etc?

One of the objectives is to develop new partnerships with various voluntary, public and commercial bodies with the view to creating joint anti-litter initiatives and to examine the potential of using the probationary services to undertake various clean-ups of litter black –spots.*

Monaghan County Council's Environment is encouraging local Tidy Towns groups through the County Monaghan Tidy Towns network to avail of the

probationary services to assist them with their work. There are currently a number of groups availing of this help.

7. Has the Council made any progress with regard to seeking sponsorship for the upkeep and development of roundabouts from local businesses?

Reply: *The Monaghan Town by-pass and roundabouts were maintained by Monaghan County Council in 2012. It is proposed to determine the preferred landscape option before approaching businesses for sponsorship.*

Cllr P. Treanor asked:

Cllr N. Keelan asked:

14. In relation to the Dundalk road (R178) junction with the Inniskeen road at Kelly's of Essexford, will the Council upgrade and enhance the signs and lines at this junction to ensure that the one-way system is obeyed in the interest of road safety.

15. In welcoming the funding of approx. €70,000 through the good offices of the East Border Region for the provision of energy efficient windows to be fitted to the County Council headquarters at the Glen, which will result in an annual energy saving of over €3,000, when is it hoped that this work will be put out to tender; is there a mechanism in place to ensure, where possible, that a local contractor would be chosen for such works.

Reply: *This project is managed, on behalf of the ten participating local authorities, by Down District Council which is in the process of procuring all energy-efficient works through a single contract in accordance with EU procurement procedures, advertised through the national press and etenders.*

It is noted that all works must be completed by the end of 2013 as required by Special EU Programmes Body (SEUPB) so they are likely to be conducted concurrently by the successful contractor in order to adhere with the aforementioned deadline. The process of procuring architectural services for the overseeing of all the energy-efficient works has been completed recently, again in line with EU procurement procedures.

13. Notices of Motion:

Cllr Carthy proposed, Cllr Bennett seconded

3. That Monaghan County Council joins the growing number of local authorities that supports the right of all couples to marry, regardless of their sexual orientation.

In proposing the motion Cllr Carthy asked that the members support the motion on the grounds that people with a different orientation should be allowed the same rights as those of the majority of the Irish public. He stated that the motion is not about supporting marriage for gay people but about accepting that we do not have the right to tell other people how to live their lives. The motion would allow people outside of the church to have the same legal safeguards, rights and supports that came with marriage and would facilitate the expressing of love between two persons regardless of their gender. Cllr Bennett seconded the motion.

Cllr P. Treanor and Crowe also spoke in support of the motion.

Cllr Carville stated that he was opposed to the motion as it was devoid of any recognition of the core truths that hold our society together and because it undermines the truths governing our understanding of the institution of marriage.

Cllrs Connolly, Murray and O'Hanlon also expressed their opposition to the motion.

The Deputy Mayor put the motion to the meeting. A roll call vote was requested which resulted as follows:

For	Cllr Bennett, Carthy, Conlon, Crowe, Keelan, McKenna, and P. Treanor	Total 7
Against	Cllrs Bannigan, Carville, Connolly, Maxwell, McNally, Murray, O'Brien, O'Hanlon, and S. Treanor	Total 9

The Deputy Mayor declared the motion defeated.

Cllr Carthy proposed, Cllr B. McKenna seconded

4. That Monaghan County Council calls on the Government to instigate a full review of the policy of depositing fluoride in public water supplies with a view to ending the practice over a stated period of time.

Prior to the motion being moved, the Deputy County Manager advised the Council that the local authority is obliged to provide for the fluoridation of water.

In proposing the motion Cllr Carthy stated that he is aware of the legal position in relation to water fluoridation but that he is calling for a review of policy in relation to this matter. He referred to a number of countries that had ceased the policy of water fluoridation and stated that the public should have a choice as to whether they have fluoride in their water supply. Cllr B. McKenna seconded this motion.

Cllr Connolly stated that a grant should be introduced to encourage water harvesting for domestic use.

Cllr Bannigan proposed an amendment – that the words ‘with a view to ending the practice over a stated period of time’ be deleted from the motion. Cllr Murray seconded the amendment.
