### **4. To receive Report on the Capital Programme 2017-2019**

The members considered the Report on the Capital Programme which had been circulated with the agenda for the meeting. The report which had been prepared in accordance with Section 135 of the Local Government Act 2001 had also been circulated to members of the Council in advance of the Statutory Budget meeting held on 23<sup>rd</sup> November, 2016. The Chief Executive responded to queries from the members in relation to the report. He stated that Capital Programme is based on a realistic and prudent assessment of the information

currently available, and has regard to the measures available to the local authority to raise funding.

The programme includes a total of 53 projects, which will require funding of some €97 million over the three year period. The inclusion of a particular project in the programme does not confer approval on that project. In line with the Public Spending Code, appropriate planning and approval, including the securing of funding, must be carried out in advance of committing to any project. Conversely, if a project arises in the period for which funding is available, and which is not currently included in the capital programme, this will not prohibit the Council from proceeding with the project, subject again to the necessary preparatory work being completed.

The Capital Programme is a rolling programme, and will be reviewed and updated annually. The Council is committed to a programme of continuous development and improvement of the county's capital infrastructure and will continue to work to identify projects for development, source funding, and implement capital projects that contribute to economic and social progress for the county. The Budget for 2017 included provision for the Civil Defence H.Q., and the Peace Campus.

Treanor, seconded by Cllr McKenna, it was agreed that Monaghan County Council makes a submission to the COMREG Draft Strategy 2017/2019, identifying the lack of a proper broadband infrastructure in County Monaghan and seeking an audit on the benefits achieved through the National Broadband Scheme, the Rural Broadband Scheme and the Kelvin Project.*

It was agreed that the Council would await the outcome of the safety audit on this road before making a decision on this proposal.

The report gave information relating to hard water formation, the role of Irish Water, water quality limits, the requirement of the Drinking Water Regulations in terms of hard water; water hardness in the Scotstown/Ballinode areas and outlined four options to address hardness. The report concluded with the following recommendations:

*Irish Water is responsible for the investment decisions and implementation of the capital programme delivery in County Monaghan. In discharging its role as the national water services utility, responsible for water services operations and investment, Irish Water is accountable to:*

- a) The economic regulator, i.e. the Commission for Energy Regulation (CER), which is charged with protecting the interests of the customer, while approving an appropriate funding requirement sufficient to enable the utility to deliver the required services to specified standards in an efficient manner;*
- b) The environmental regulator, i.e. the Environmental Protection Agency (EPA), which sets standards and enforces compliance with EU and National Regulations for drinking water supply and wastewater discharge to water bodies. The EPA liaises with the HSE in matters of public health.*

*Investment decisions relating to resolving customer issues in the Scotstown/Ballinode area is not a matter for Monaghan County Council. Such capital investment decisions can only be made by the national utility. While treatment to reduce hardness in water supply is not currently a priority for Irish Water, it may be considered in severe cases by the CER when priority compliance issues have been addressed.*

Cllr Keelan requested that a report be prepared on the possibility of blending water supplies to address the hard water problem in the South Monaghan area.

Following his presentation of the report, which a number of members welcomed, Mr. Flynn responded to queries from the elected members. He again confirmed that any decision regarding capital investment in water services in the county is a matter for Irish Water.

**16. Presentation from HSE Officials Cathal Hand Primary Care Manager and Paul Hayden, Estates Manager:**

The Cathaoirleach welcomed HSE officials Cathal Hand, Primary Care Manager and Paul Hayden, Estates Manager and invited them to address the members.

Mr. Hand and Mr. Hayden gave a joint presentation to the members during which they outlined, in detail, the process that had been undertaken in relation to the development of a primary care facility on the grounds of St. Davnet's Hospital. This facility had originally been proposed for the Monaghan Hospital site but due to problems with that site and the costings, the decision had been taken in late summer 2016 to re-locate Primary Care Centre to the St. Davnet's site. They confirmed that the new Centre would be located in the Blackwater House building which will be re-furbished to accommodate it. They stated that they expected that the new facility would be completed by 2020.

They also gave details relating to the refurbishment of Oriel House, a centre for the elderly on the St. Davnet's campus. This refurbishment is necessary following its non-compliance with HIQA standards. The residents were transferred to St. Mary's Hospital in Castleblayney where they will remain or be relocated by the HSE to other facilities in the North Monaghan area if they wish. They explained that the new Primary Care Centre would also include 20 beds, for the most appropriate use at any given time, so there would be no loss of bed numbers for this area. It was expected that refurbishment work would commence later this year. Following the refurbishment, vulnerable residents of the Blackwater Building would be relocated into the Oriel House building, which would be renovated to meet the standards of the Mental Health Commission.

Following the presentation a number of members expressed concern at the delay in bringing the Primary Care project to construction stage. The HSE officials acknowledged their concerns and stated that they were not happy with the delays either, which were due to the reasons that had been outlined in their presentation.

Cllr Maxwell suggested that the Council would obtain an update in relation to progress on the Primary Care Centre in May/September 2017. This was agreed.

The Chief Executive thanked the officials for their presentation. He assured them of support from the Council in terms of planning etc., and suggested that they would contact the Council as early as possible in the pre-planning stage.

The Cathaoirleach thanked Mr. Hand and Mr. Hayden for attending the meeting and for the comprehensive and frank way in which they imparted information to the members.

**Cllr. P. Mc Nally proposed, Cllr S. Coyle seconded**

1. *That this Council calls on the Minister for Housing, Planning, Community and Local Government, Simon Coveney TD, to amend the housing legislation to allow tenants of voluntary housing agencies purchase their homes.*

A debate took place on the motion during which a number of members expressed concern that this would have a negative impact on the voluntary housing sector. Cllr McNally made the point that young individuals with families in voluntary housing did not have the option to purchase their homes. Any disposal would be in accordance with the Council's Tenant Purchase Scheme. He was not suggesting that houses let to elderly or special needs tenants would be eligible for purchase.

Cllr Conlon stated that the matter had been raised at a recent event hosted by the Irish Council for Social Housing and he suggested writing to that body to see if there was any room for flexibility. This was agreed.

It was agreed to await the outcome of the clarification from the ICSH before making a decision on the motion.

### **Urgent Business:**

Cllr Conlon proposed, Cllr McKenna seconded

*That this Council supports recent calls for accountability and explanations from the National Ambulance Service, the HSE and the Minister for Health regarding the inadequate ambulance cover and resulting delays recently, and regularly, experienced by citizens in Monaghan.*

In moving the motion Cllr Conlon referred to a list of questions that he was proposing should be put to the Ambulance Service, as follows:

- 1) What is the reason for regular and occasionally inordinate delays of ambulances arriving to the patient?
- 2) Given recent and ongoing experiences of ambulance delays, why are ambulances no longer stationed at the Monaghan location at St. Davnet's established over five years ago?

- 3) For County Monaghan, what percentage of response times, from emergency call received to arrival to patient, meet within the HIQA recommended time frame of 19 minutes for cardiac and respiratory life threatening (ECHO) cases, and similarly with other cases that fall into the DELTA category?
- 4) Due to the lengthy delays associated with transitioning patients between ambulance and emergency department personnel, up to three hours during the current trolley crisis where ambulance personnel must remain on site, will an alternative process be established by the NAS to streamline this process?
- 5) In relation to staffing levels, provide a three year analysis of staffing levels of ambulance personnel.
- 6) In relation to the ambulance fleet, provide a three year analysis of number of emergency vehicles acquired or decommissioned within the fleet covering the Monaghan area.
- 7) Regarding the use of emergency ambulances for routine inter-hospital patient transfers, have NAS developed a dedicated non-emergency patient transport system, for routine transfers.
- 8) For the NAS to provide outcomes of the review of ambulances services initiated by former Health Minister James Reilly TD for the purpose of identifying the volume and location of resources required to achieve optimal effectiveness and efficiencies, improve performance, and deliver a better service to the patient.

The Cathaoirleach put Cllr Conlon's motion to the meeting and it was agreed unanimously. It was also agreed that the eight questions listed above should be issued to the National Ambulance Service for response.

The meeting then concluded.
