17. Questions:

Cllr C. Carthy asked:

1. What is the current up-to-date position on the Magheross Unfinished estate in Carrickmacross?

Reply: Tuath Housing's proposal to complete a significant portion of the unfinished development at Magheross on the Ardee Road in Carrickmacross to provide 33 social houses has not yet commenced.

Tuath Housing has advised that some technical and legal documentation required to facilitate commencement was to be finalised in February 2019 however there was a delay with the documentation required. A recent full-page newspaper article in the Northern Standard newspaper suggested that commencement was imminent. Tuath Housing has advised that funding approval is in place for the project and hopes to see commencement on site in a short number of weeks.

At present, the proposal is still supported by Monaghan County Council and the Department of Housing, Planning & Local Government.

2. When is it expected the Group Home for Persons with Physical and Sensory Difficulties will be opened in Carrickmacross?

Reply: Monaghan County Council has been advised by the HSE that the “procurement process for the external service provider” that is required for the running of the Group Home is in progress. The closing date for tenders for the “external service provider” is the end of March 2019. After the closing date tenders will be assessed and notices will be issued to the successful and unsuccessful firms. Following the required 14-day standstill period the successful firm will be appointed and they will commence their setup process which may involve recruitment. Dependent on tenders received the HSE expects the Group Home to be opened in Quarter 2 of 2019.

3. What is the current situation with the proposed new Primary Care Centre in Carrickmacross?

Reply: Notification of Intention to grant planning permission for a new Primary Care Centre in Carrickmacross was issued on 28th March 2019.

4. With the increase in funding to Monaghan County Council’s Housing Section last year to deal with Vacant housing, what works have been carried out since and has the review of vacant housing concluded?

Reply: The desktop review of Vacant Housing in County Monaghan by Monaghan County Council is ongoing and has revealed the following:

CSO Census 2016 Data: 3,126 vacant residential properties in County Monaghan (242 are holiday homes). This would equate to a vacancy rate of 12 % for County Monaghan consistent with the national average also 12%.

An Post/Eircode data shows: 1,292 vacant residential properties in County Monaghan.

There is a very significant discrepancy between the CSO statistics and An Post/Eircode data. Monaghan County Council has been working on verification of the data and will continue this work on the ground over the coming months in 2019. Of 203 vacant houses inspected over the last 26 months 90 have been purchased or in the process of being purchased by Monaghan County Council. In cases where property owners are not in a position to sell they have been provided with information regarding the Repair & Leasing Scheme.

Monaghan County Council will continue to develop the vacant homes programme and target suitable vacant homes for acquisition in areas of housing need.

5. Would the Council consider allocating waste grounds (parts of sites that cannot be utilised for building or roadworks) in its ownership to community groups or schools or interested parties that want to increase Biodiversity, Environmental planting etc?

Reply: Monaghan County Council seeks to manage the property portfolio in a professional, coordinated and efficient manner. Only where a clear case can be demonstrated for the beneficial use of property will this will be considered in the context of; value, business needs and service provision by the Council.

Cllr S. Conlon asked:

6. I ask for the Housing Section to give an explanation for the lengthy delays that are holding up commencement of the last phase of the Mullaghmat Remedial Scheme.

Reply: Work on Phase 4 of the Mullaghmat Remedial Works Scheme officially commenced on site on 14 March 2019. The procurement of the project has been managed on behalf of Monaghan County Council by the Housing Agency. There

have been several unavoidable delays which prevented the earlier appointment of a Contractor.

Following a long design and consultation process the invitation to tender was published in April 2018. Tenders for the project were received on the 15th of May 2018 and following delays in the submission/assessment of the detailed pricing document and further information a pre-contract meeting was held with the apparently successful Contractor on the 11th of July 2018. On the 9th of August 2018 the Housing Agency received a letter from the apparently successful Contractor withdrawing their tender.

Following the withdrawal of the 1st Contractor the Housing Agency proceeded in contacting the Contractor who submitted the second-placed tender. The tender analysis, report and recommendation in relation to the 2nd Contractor was drafted in September 2018 however there was a significant delay in getting the necessary documentation from the 2nd Contractor to complete the Tender Report. In December 2019 the Housing Agency received sufficient documentation from the 2nd Contractor to allow full assessment of the tender and a recommendation to appoint the Contractor was prepared and submitted for approval in January 2019.

Approval to appoint the Contractor was received from the Department of Housing, Planning & Local Government and a letter of intent to appoint the Contractor was issued. Following the issuing of the letter of intent the Contractor is required to submit further documents including up-to-date insurance details, tax compliance information, programme information and documents demonstrating capacity to procure a contract guarantee bond.

There was a further delay on the part of the Contractor in providing some of the further documents required, this was in part due to the scale and complexity of the project and in part due to a change in the Contractor's situation. The Contractor appointed, Brendan Loughran & Sons Limited, has a good track record for delivery of similar projects. The project has now commenced on site and has a duration of 65 calendar weeks with completion scheduled for Quarter 2 of 2020. Opportunities to reduce the programme will be examined.

Reply: 'As set out in An Bord Pleanala decision in respect of the proposed North South Electricity Connector, there are a number of conditions that require the undertaker to agree details in writing with the relevant planning authority prior to commencement of development. In accordance with the duty of the planning authority to engage with planning applicants/developers, two meetings have been facilitated between ESB/EirGrid and officials from Monaghan County Council, and a document (which was subsequently revised) relating the proposed approach to discharge of planning conditions issued to the relevant planning authorities in July 2018 was considered. 13. In relation to recently announced Clár funding opportunities for infrastructure improvement etc.,
- What towns and villages can avail of this funding stream across the county?
 - Is there any opportunity to have the village of Donaghmoynne included in the Clár area?

Reply: CLÁR (Ceantair Laga Árd-Riachtanais) is a targeted investment programme for rural areas that aims to provide funding for small infrastructural projects in areas that experience disadvantage. The aim of CLÁR is to support the sustainable development of identified CLÁR areas with the aim of attracting people to live and work there. Designation of Clár areas is decided by the Department of Rural and Community Development and not at Local Authority Level. The rural focus of Clár requires identification of eligible areas by way of District Electoral Division (DED) rather than by town or village designation. The entire list of eligible DEDs in County Monaghan is set out below.

A review of the CLÁR programme is currently being conducted by the Department of Rural and Community Development which will examine eligibility of CLÁR areas by reference to the 2016 Census of Population data. It will also consider whether there are any other factors that should be taken into account in designating areas for eligibility under CLÁR in the future.

For information, the following towns & villages are not included in eligible CLÁR DED Areas;

- Monaghan Town
- Castleblayney Town
- Carrickmacross Town
- Scotstown
- Ballinode
- Part of Smithboro & Threemilehouse

Cllr R. Aughey asked:

14. Can Monaghan County Council clarify the status of the Rebuilding Ireland Scheme for County Monaghan- current drawdown/ potential budget remaining and other important facts and figures for members relating to same?

Reply: Monaghan County Council received allocation of €5m for all loans including the Rebuilding Ireland Home Loan. To date:

- 38 applications received
- 11 have been approved to the value of €1,090,000
- 10 currently in process
- 6 were incomplete or ineligible applications and
- 11 declined

15. Can Monaghan County Council investigate the feasibility of bringing vacant commercial properties back into use to help ease the Housing Crisis, including the use of compulsory purchase orders?

Reply: Monaghan County Council has been inspecting various vacant properties including derelict commercial properties for possible use as social housing. Where owners of these properties can be identified and if suitable for purchase Monaghan County Council endeavours to purchase in a cooperative non-confrontational manner. If all cooperative avenues are exhausted or if ownership of the vacant properties cannot be identified Monaghan County Council may consider Compulsory Purchase Orders under the Derelict Sites Act 1990. Feasibility studies are carried out on potentially suitable vacant properties including properties with previous commercial activity to establish the best possible use and investigate potential suitability for social housing. An example of this is the Clones Renewal Scheme where seven of the properties purchased had a history of commercial use on the ground floors and are now proposed as social housing units. The ground floors of the proposed apartment buildings in the Clones Renewal Scheme are designed in such a way that if in the future vibrant commercial activity returns to the area the ground floors could be returned to commercial use.

16. Can Monaghan County Council - open up a dialogue with other Local Authority Areas in regard to the Rural Resettlement Programme and position themselves top of the list for this when it does come down the line.

Reply: The current government has initiated a Pilot scheme to encourage people to return to living in town centres and this was launched in a number of limited villages in October 2018.

Upon the roll out of the national scheme, and when full details of the manner in which it will be operated have been published, the Housing Authority will explore the benefits to the County and its individual towns and villages and initiate its usage where appropriate

17. Can Monaghan County Council invite a presentation to members from Monaghan LEO in relation to their activities over the past year and their plans for the year ahead especially in light of Brexit?

Reply: Monaghan County Council already received a presentation from Mr. J. McEntegart, Head of LEO in October 2018. Additional information in relation to the activities of the Local Enterprise Office is contained in the Management Report for the April Council meeting.

18. Notices of Motion:

Cllr S. Conlon proposed, Cllr Bennett seconded

1. That Monaghan County Council makes contact with neighbouring local authorities asking them to engage with Kanora B2B Ltd with a view to providing a similar text alert service to that being provided by this Council through Kanora B2B, for the purpose of providing a more thorough and robust effort at tackling cross border criminality.

Cllr Conlon requested that the following wording would be substituted for motion number 1 – this was agreed

Cllr Conlon proposed, Cllr Bennett seconded that following the creation of the county wide text alert scheme by Monaghan Co. Co. in partnership with Komeer Alerts Group, that for the purpose of enhancing the effectiveness of this scheme and the security of our citizens in border areas, that we seek to explore cross-border cooperation that will implement a regional approach to this Komeer Alerts Scheme. Further, that we correspond with the Centre for Cross-Border Studies in Armagh in regard to their "New Common Chapter" Initiative.

A vote by show of hands on Cllr Conlon's motion resulted in 14 for, nil against, 2 abstentions.

Cllr S. Conlon proposed, Cllr B. McKenna seconded

2. Following the absence of response from the December 2018 meeting that we write once again to the National Ambulance Service representatives Tom Howell and William Merriman seeking clarifications on their commitments given that 'six additional paramedics were being assigned to Monaghan in the near future'.

3. That Monaghan County Council demands of the Taoiseach, Leo Varadkar T.D., the Minister for Employment Affairs & Social Protection, Regina Doherty and all government Ministers, the immediate payment of full pension entitlements to all of the 90,000 persons, discriminated against, by the anomaly created by the Fine Gael dominated government in budget 2012, described by Minister Pascal Donohoe as “bonkers and unbelievable”, which has cost huge numbers of pensioners, mainly women, thousands of euros per year, with the government giving a commitment to have the anomaly corrected, with the increased payments taking affect in the first three months of 2019, but to date only a small percentage of the 90,000 persons have had their files reviewed, this is a clear example of this Fine Gael governments, neglect of older people, as shown in a recent Eurostat report, which found that just 3.4% of GDP goes towards social protection for older citizens in Ireland, compared to EU average of 10% in member states”.

Urgent Business

Cllr Carthy proposed, Cllr Carthy seconded

Monaghan County Council calls on the HSE to immediately reverse their decision to implement a €4 daily charge to those with a bus pass using collection services to, and from, day care services.

- *We highlight our concern that the most vulnerable people in our society will be hit with this expense;*
- *That those attending day care services for 5 days a week will be expected to pay almost 10% of their income in transport (approx. €1000 per annum);*
- *Families with more than one member using these services will be hit with multiple charges.*

This Council wishes to express our disappointment at the HSE for the lack of proper consultation prior to this implementation.'

That in view of the decision by the HSE to introduce a €4 per day charge on service users attending Community Day Care Centres and Intellectual Disability Care Centres, despite the fact that these service users hold free travel passes, that Monaghan County Council calls on the HSE to immediately reverse this decision which is due to come into effect on Monday 01/04/2019.
