

Ballybay to Castleblayney Greenway - Public Consultation No.3

The Ballybay to Castleblayney Greenway is a proposed 11.5-kilometre walking and cycling path that would connect Ballybay to Castleblayney in Co. Monaghan. In addition to reconnecting these two areas and their associated attractions, it is envisioned that the proposed greenway would improve accessibility to other local attractions in the area, which, depending on the selection of the preferred route, may include Lough Major and Lough Muckno, old railway structures, and the Castleblayney outdoor adventure Centre.

The vision of the Ballybay to Castleblayney Greenway is to create a safe and healthy recreational corridor for the wellbeing of all residents, communities, and visitors.

Key project objectives are as follows:

- Improve walking and cycling options in the area and provide for a safer environment for walking, cycling and wheeling.
- Improve awareness of and access to amenity areas and areas of natural beauty in the area to cater for the local population and visitors.
- Stimulate and grow economic activity along the greenway.
- Increase the adventure and recreational potential of the area through increased sustainable tourist and amenity use of the countryside.
- Link into other proposed greenways to become part of a strategic network.

Ballybay to Castleblayney Greenway - Public Consultation No.3

PROJECT STATUS

The development of a project of this nature involves several stages. Phase 1 involved the development of the Study Area, Public Consultation in respect of the Study Area and the preparation of a Feasibility Report. The current stage of this project is Phase 2: Options Selection. A preferred route corridor has now been developed which takes account of project objectives and known constraints. The public are now invited to provide their feedback on the preferred route corridor. The closing date for feedback submission for this project phase is **Wednesday April 10th 2024**.

CONTACT US

In order to provide your views in respect of this project and the study area developed, you can fill in the attached feedback form, visit the project website or write or e-mail the project team at the contact details below.
