

Wednesday

Education for Sustainability School Workshop

Education for Sustainability, in collaboration with Monaghan County Council, will deliver a series of interactive workshops to schools, focusing on key topics such as: climate change, plastics and our ocean, fast fashion, sustainable transport, biodiversity loss, energy, and sustainable action. These sessions aim to inspire students to take meaningful climate actions by deepening their understanding of the environmental challenges we face locally as well as globally.

Time: Morning & Afternoon

Date: Wednesday 16th October

Location: Carrickmacross & Monaghan Town

Fully booked

School Wildflower & Native Apple Tree Planting

The Biodiversity Officer and Horticulturist of Monaghan County Council will be carrying out planting of a native wildflower area and native apple trees with a local school in Ballybay. Native wildflower meadows are effective nature-based solutions to help combat against climate change – native wildflower meadows are more biodiverse, sequester more carbon and require less water and nutrients than mowed lawns.

Date: Wednesday 16th October

Location: Ballybay

Fully booked

Climate Action Storytelling in Carrickmacross Library

Join the library staff in Carrickmacross as they deliver a climate action themed storytime as part of climate action week. There will also be a climate action book display for Climate Action Week.

Date: Wednesday 16th October

Location: Carrickmacross Library

Fully booked

Not Stopping Now! Dark Matters

An aisce's Climate Ambassador Programme, in collaboration with The Heritage Council and the Biodiversity Network, is excited to bring you the finale of our webinar series designed to help you reconnect with nature.

“Not Stopping Now: Nature’s Resilience” featured four engaging webinars, each focusing on a different aspect of our amazing biodiversity. These sessions showcased nature’s incredible ability to adapt and thrive, highlighting innovative conservation efforts, and exploring how we can all play a part in supporting these initiatives.

In the fourth and final session, Climate Ambassador Georgia MacMillan from Dark Sky Ireland will talk about Dark Skies and how to restore our natural nightscape as a habitat.

Time: 1-2pm

Date: Wednesday 16th October

Location: Online

Green Campus

Join An Taisce for the launch of 'Greening Laboratories' as a new sub-theme of the Green Campus programme. Green Campus committees working in colleges and teaching hospitals can achieve positive benefits by working with laboratory staff to take action in laboratories where waste, energy and water figures can be relatively high. Dr Úna Fitzgerald from Irish Green Labs will join us along with Helen Maher from the HSE Capital & Estates Sustainable Infrastructure Office and Dr Ana Rakovac, co-chair of the Tallaght University Hospital Green Committee for this lunchtime webinar.

If you have any queries, please contact greencampus@eeu.antaisce.org

Time: 1pm

Date: Wednesday 16th October

Location: Online

SCRAP Sustainable Sewing Workshop

The 'SCRAP' project will encourage secondary school students to slash, sew, shred, embroider and embellish second hand clothing to create unique and wearable fashion pieces. The project will launch during Climate Action Week with a sewing workshop for Transition Year students. Workshop participants will be introduced to basic sewing machine techniques and understand how these can be used to alter clothing.

Date: Wednesday 16th October

Location: Carrickmacross Library

Fully booked
